GlobalTech® Industrial Isopropyl Alcohol Wipes 70/30 Blend & 99%

Product Description

GlobalTech Isopropyl Alcohol with Deionized Water (IPA/DI) and 99% (IPA) are non-aggressive universal cleaners, degreasers and disinfectants. Our industrial grade wipe material offers the right balance of strength and absorptivity making it suitable for a wide range of industrial applications. They won't scratch soft surfaces; yet have sufficiently active texture to clean surfaces. They remove most types of inks, pastes, fluxes, light oils and other contaminants associated with assembly, machining, soldering and printing. Ideal for use in surface preparation prior to manufacturing or assembly processes.

Features

Dries spot free	Low toxicity
Drying agent	Mild odor
Extremely economical	Plastic safe
Flux thinner	Perfect for critical electronic cleaning
Highly effective	Very fast evaporator

Applications

Control systems	Office and medical equipment
Electronics maintenance	PC boards and components
Fiber optics and connectors	Production equipment
Hard-line coax cable	Relays
Most industrial cleaning	Screens and stencils
