

Technical Data Sheet

GlobalTech® World Class Cue Care Wipes

Shaft & Ferrule Cleaner (SFC) Product Description

World Class Cue Care Shaft & Ferrule Cleaner is a high performance saturated wipe that lifts chalk, oil and grime from cue shafts and ferrules in one easy step. This exclusive chemistry is laboratory tested and contains no harsh chemicals that will dry out or damage wood shafts or ferrule material. Each wipe contains safe, deep cleaning agents and conditioners that dry rapidly without raising the wood grain. No more paper towels, small expensive bottles or messy powders that raise the grain. Unlike other cleaners, SFC is easy to use. Just pull out a wipe and start cleaning.

Highlights

- Cleans cues and ferrules
- Easy to use; one-step cleaning system packaged in a convenient dispenser
- Saturated wipe will not scratch or damage cue
- Fast drying formula will not raise the grain
- Prevents the sticky build-up that develops over time
- No more paper towels, small expensive bottles or messy powders

Method of Use

Vigorously wipe the entire shaft with the wood grain. Move to a clean area of the wipe and continue cleaning until wipe appears dry. Heavily soiled cue shafts and ferrules may require more than one wipe. For optimum results, follow with a final polishing using our Shaft Treatment & Cue Polish.

Shaft Treatment & Cue Polish (STP) Product Description

World Class Cue Care Shaft Treatment & Cue Polish is a high performance saturated wipe that creates an ultra smooth cue. It seals, conditions, preserves and polishes while adding a protective finish that repels moisture, dirt and chalk in one-easy step. This extremely safe chemistry is a laboratory tested, non-toxic and contains no abrasives or harsh chemicals to harm or dull the cue's finish. Unlike other products, STP wipes are easy to use; just pull out a wipe to restore the luster, shine and natural beauty of the cue. Each wipe contains advanced polishing agents that will not build-up; no more waxy or sticky shafts. Ideal for fiberglass, graphite and composite cues.

Highlights

- Polishes cues; leaves an ultra smooth finish on wood, fiberglass, graphite and composite cues
- Easy to use; one-step polishing treatment in a convenient dispenser
- Non-toxic, no abrasives or harsh chemicals; will not harm or dull finish
- Contains no wax that attracts dirt and chalk
- Eliminates waxy build-up and sticky shafts
- Seals, conditions and preserves the wood shaft
- Adds a sparkling shine; helps remove surface scratches from the cue's finish
- Leaves a protective surface that repels moisture, fingerprints, dirt & chalk
- Eliminates the use of powder or gloves

Method of Use

Wipe the entire shaft with the wood grain using rapid motion and moderate pressure. Continue this process for approximately 30 seconds. Repeat this process until desired shaft smoothness and luster is achieved. Enhance the feel of your entire cue; safe to use on the forearm, butt sleeve and cap. For optimum results, use our Shaft & Ferrule Cleaner prior to polishing.
